

ALTERNATIVE ENERGY: ICELAND, FRANCE AND SCANDINAVIA

Program Description:

Walk on black beaches and swim in hot springs near the Arctic Circle. See geysers, waterfalls, fjords and glaciers. Explore four of Europe's most fascinating capital cities: Reykjavik, Iceland; Oslo, Norway; Copenhagen, Denmark and Paris France. This is the backdrop to our curriculum focused on renewable energy including geothermal, hydroelectric, nuclear and wind power. Students will learn how these countries produce almost all their electricity in ways that help combat problems with climate change, population growth and fossil fuel depletion. Tours of each country will allow students to see the impact of alternative energy sources within the context of each culture.

Program Dates:

May 5-26, 2020

Application Deadline:

February 28, 2020

Course(s):

CH 4713/6713: Study Abroad Tour (3 credit hours)

Eligibility/Prerequisites:
